ABOUT

Doctoral researcher at the University of Aveiro, integrated member of the Research Centre on Didactics and Technology in the Education of Trainers (CIDTFF – DEP), and collaborator of the Artificial Intelligence and Computer Science Laboratory (LIACC) at the Faculty of Engineering, University of Porto. He has been active in scientific research for over two decades at the intersection of Education, digital technologies and research methodologies, with a recent focus on the critical, ethical and responsible use of artificial intelligence — including large language models — in higher education and scientific research contexts.

PhD in Multimedia in Education from the University of Aveiro, with a postdoctoral fellowship in qualitative research applied to Education and a background in Communication Engineering. He is author and editor of more than 300 scientific publications. He has coordinated, since their creation, two of the leading international events in qualitative research: CIAIQ and WCQR.
